

# Shareholders Agreements

A Shareholders Agreement is in effect a partnership agreement between the shareholders of a company.

If you are considering buying into or setting up a company with someone else you need to know:

- Who will be the shareholders, in what proportion and what are their rights and obligations?
- Who will be the Directors and what are their rights and obligations?
- Are you putting money in for the company to operate and if so, can you get it back?
- Is a company the most tax effective structure for you?

We can help you with the steps of set-up of the company and shareholders agreements. We talk you through the process.
